

Applied Motor™
is the product of choice
for all brokers selling
motor insurance.

Applied Motor has the widest range of insurers and full-cycle EDI schemes, which is why more than 85% of Irish brokers access the system every day.

Easily rebroke current and potential private motor policies and make sure your customers are completely covered, while keeping the cost of transactions as low as possible.

Applied Motor allows you to manage document production at the individual level to ensure you get the required documentation back from customers fast; process renewals simply using pre-configured workflows to retain business quickly; and leverage last year's risk data to provide customers with guidance for the future.

Allows your business to

- Save time on document production
- Keep your customers longer
- Secure more new customers

“The step-change in processing efficiency means the time and cost of writing private motor business has been slashed.”

– Tony Doyle, Managing Director, Creane & Creane Insurance Brokers

Core Capabilities

Full-Cycle Motor

Enables you to take advantage of new business premium and referral override, permanent and temporary MTAs, automatic renewal re-broke, and complete policy and risk history.

Electronic Payment Delivery

Allows you to stay Payment Card Industry (PCI) compliant; use credit and debit card processing; take deferred and recurring payments and paperless direct debits.

Vehicle Registration Matching

Lets you easily find accurate vehicle information and save entry time while also using process substitutions and underwriting.

85% of brokers access Applied Motor on a daily basis.
